About Ahuja Plastic Udyog

Since its establishment in **1995** by **Mr. Sanjeev Ahuja**, **Ahuja Plastic Udyog** has been a prominent figure in the realm of automotive molded plastic parts. Situated in **Faridabad, Haryana**, our company has garnered a reputation for excellence as a **Manufacturer, Supplier, and Exporter** of a diverse range of products catering to the automotive industry. Our commitment to quality and innovation has propelled us forward, earning the trust of clients both domestically and internationally.

Specializing in four-wheeler plastic molded components, we offer a comprehensive array of solutions designed to meet the dynamic needs of the automotive sector. From plastic molded automotive components to cleats, links, and locking levers, our product portfolio reflects our dedication to providing top-notch solutions for our customers.

Our expertise extends beyond traditional automotive components. We also produce plastic molded sprockets, modular conveyor belts, and automobile door handles, showcasing our versatility in serving various aspects of the automotive manufacturing process. Each product is crafted with precision and attention to detail, ensuring optimal performance and durability in demanding automotive applications.

At **Ahuja Plastic Udyog**, we understand the importance of customization and adaptability in today's fast-paced automotive industry. That's why we work closely with our clients to develop tailored solutions that meet their specific requirements. Whether it's designing custom plastic molded cases, knobs, or other specialized components, our team is committed to delivering solutions that exceed expectations.

Quality is the cornerstone of our operations. We adhere to stringent quality control measures at every stage of production, from sourcing raw materials to final inspection, to ensure that our products meet the highest standard
