About Akktva Sadguru Engineering

At Akktva Sadguru Engineering, we've been a trusted partner for various industries since 2013. Founded by Vilas Gopal Bhalekar in Mumbai, Maharashtra, we've grown from strength to strength, providing a comprehensive range of high-quality industrial supplies.

Our commitment lies in offering exceptional products like mechanical seals, hydraulic quick release couplings, ball valves, ferrule fittings, and a vast selection of quick release couplings. We understand the importance of reliable connections and fluid control in your operations. That's why we source and manufacture these products with meticulous attention to detail and quality.

Beyond core fluid management solutions, Akktva Sadguru Engineering caters to a wider range of industrial needs. We offer cable glands, brass nuts, CNC components, stainless steel tees, weld nipple bodies, and pipe flanges. Our commitment extends to providing essential hardware like brass inserts, butterfly valves, and brass fasteners.

We also recognize the specialized needs of certain sectors. That's why we stock specific items like needle valves, dairy valves, ferrule tube fittings, and pharma capsule body bushes.

At Akktva Sadguru Engineering, we believe in fostering long-term relationships with our clients. Our focus is on providing exceptional service alongside our superior products. We understand the urgency of your projects, which is why we offer competitive delivery timelines. Additionally, our team is dedicated to providing you with the technical expertise you need to make informed purchasing decisions.
