three phase servo-controlled voltage AIR COOLED stabilizer

AC Single Phase AC Synchronous Motor

About Axis Electric Corporation

Axis Electric Corporation

Company Profile

Established in the year 2022, we at Axis Electric Corporation are India's leading voltage stabiliser and transformer manufacturing company. We have expertise over Schneider Switchgear, Copper Winding Wire, Ac Synchronous Motor, Servo Voltage Stabilisers, HTCT Digital Multi Port Meter, 8 Amps Variable Auto Transformer, L T Mnx Contactor, and Mild Steel Cable Lugs. Based in Bangalore, we are ready to give the top voltage stabiliser and transformer solutions to our clients over the years. Our prime focus on customer satisfaction has ended in finding various accolades and laurels over the years.

Since our beginning, we have aimed to innovate and manufacture dependable power conditioning products that execute individual requirements and have durations higher than the industry norm. Our products are intended in accordance with the worldwide standards of health, safety, and surroundings, permitting us to expand our reach worldwide.

Axis Electric Corporation focusses on designing custom products that give customised solutions to our clients. We examine the trouble at hand and then work on giving a reliable and reasonable solution using our high-tech modern production techniques.

Under the leadership of our Sales & Service and Marketing Head, Mr. Nagraj Nayak, and the skilled workers that have been a part of our family, we have offered the finest solutions to our clients using progressive technology.

Axis Electric Corporation is committed to giving trustworthy solutions to our clients, despite the scale of their plan, at reasonable prices.
