## About Dhwani Corporation

Founded in the year 2016, Dhwani Company is leading the international domain by offering complete solutions for the textile industry in the form of premium quality Textile Yarns, Machine and Trolleys that are revered for its quality, durability and utility all across the globe.

Headquartered in Surat (Gujarat, India), our company is successfully progressing by leap and bounds as a manufacturer, exporter and trader under the proficient guidance of our Founder, Mr. Karan Dev, who is an extremely competent MBA and searches for new and modern marketing opportunities, thereby offering a wide range of performance efficient Textile Covering Machine, Loom Machine, Sizing Machine, Warping Machine, Winding Machine etc. in the market.

In order to furnish the finest quality products in the required specification, we readily invest in modern machines and equipment that are regularly enhanced according to the set standards of the industry. Due to this, we have an unmatched operational efficiency, be it business process design, logistics, production and quality-testing. Our advanced manufacturing facility also assist us in offering innovative, cost effective and customizable solutions without hampering the standards in any way.

With win-win mind-set and commitment to principles of mutual trust, integrity and quality, our experienced professionals from different walks of life are diligently operating their respective domain to attain goals within the stipulated time period. Moreover, our professionals spare no effort in carefully executing the business operations. Moreover, they leave no stone unturned while procuring, producing, testing, storing, packaging and supplying our best-in-class range.

To achieve maximum customer satisfaction, we have clearly stated goals and follow all the guidelines to stay in tune with the specific requirement of our customers. We also provide our products in various customizable packaging options to prevent the shelf-life of our offerings by protecting them during transportation and storage. Regardless to say that we are equally committed to deliver our products within the stated time span and lean towards constant customer guidance to achieve the same.
