About Guru Pump Automation Company

Established in **2011**, **Guru Pump Automation Company** is a premier **manufacturer and supplier** specializing in advanced pump control solutions and equipment. Headquartered in **Delhi**, we are dedicated to enabling efficient and reliable water management for residential, commercial, and industrial applications.

Our expertise is centred on the development and manufacturing of the Guru Tech brand of submersible pump control panels. Our product range includes the Concord, GTO, and DSL series, each designed to meet diverse pump requirements and ensure optimal performance.

In addition to control panels, Guru Pump Automation Company is a trusted provider of water level indicators and pressure pumps. These products integrate seamlessly to form a comprehensive water management system, offering users enhanced control and convenience.

Quality and durability are at the forefront of our manufacturing process. Every product is meticulously designed and constructed with high-grade materials to ensure long-lasting performance and reliability.

We are committed to water conservation and efficient operation. Our innovative control panels and equipment are engineered to optimize pump functionality, reducing energy consumption and minimizing environmental impact.

Under the leadership of CEO **Mr. Sonu Kumar**, Guru Pump Automation Company strives to exceed customer expectations. We provide exceptional technical support and personalized recommendations to help you find the perfect solution for your water management needs. Whether you need a single component or a complete system, Guru Pump Automation Company is your go-to source for reliable and efficient pump control solutions.
