About Hermed Meditech Solutions

Since 2017, Hermed Meditech Solutions, a leading manufacturer and trader based in Ghaziabad, Uttar Pradesh, has been a trusted provider of doors for the healthcare, medical, and pharmaceutical industries. Founded by Mr. Kanchan Joshi and Mr. Sandeep Panchal, their success is built upon a foundation of experienced professionals, cutting-edge technology, and an unwavering commitment to international quality standards. This commitment to customization allows them to cater to a wide range of healthcare facility requirements. Their extensive product portfolio includes hermetically sealed sliding doors, ideal for maintaining sterility in critical medical environments. They also manufacture anti-radiation doors, essential for X-ray rooms and other areas requiring protection from radiation. For hospitals, Hermed provides a comprehensive selection of options including manual and automatic sliding doors, swing doors, lead-lined doors designed to block radiation, and fire-resistant doors for enhanced safety. Operation theaters have specific door needs, and Hermed Meditech Solutions addresses them with OT sliding doors, both automatic and manual hermetically sealed sliding door options, and lead-lined doors for additional radiation protection. X-Ray Rooms can be equipped with anti-radiation doors, lead-lined doors, and HP lead line variations, ensuring the safety of staff and patients. Clean Room solutions include semi-hermetic hinged doors and airtight sliding doors, both designed to maintain a controlled environment. Hermed Meditech Solutions even offers complete Modular Operation Theaters featuring hermetically sealed sliding doors, OT control panels, and surgical pendants, providing a comprehensive solution for your surgical needs. The commitment to quality extends beyond the materials and processes used in Hermed doors. They are meticulously designed to comply with health standards, promoting easy cleaning and minimizing bacteria accumulation.
