About Ideal Lighting & Smart Technologies (P) Limited

Ideal Lighting & Smart Technologies (P) Limited is a company which everyone can say is a company which provides solutions to clean room as well as street lighting. It is based in and operates from Ankleshwar in Gujarat manufacturing, supplying and exporting to foreign soils. It has been generating revenue to the tune of 5.0 to 25 crores since its inception in 2020.

Our Lighting Range

We have huge range of lighting solutions both for the clean room as well as the streets of India and foreign streets. Lighting is of utmost importance in today's civilized world where every day of our lives we need lights and illumination. To provide this illumination we have come up with a huge range of products. We manufacture all kinds of street lights which are both flameproof and weatherproof. We have the same variety of light luminaries, high and low bay luminaries, flood lights, street light luminaries and switchgear luminaries.

To get a view of our range and profile all you would require is to get a look into our catalog and place your order to light up wherever you would like to.

Product Guarantee

Our products come with an assured guarantee of quality and price. It never fails to illuminate your streets and light rooms properly with the radiance required. It is our assured guarantee that we sell our products at a very reasonable price which remains affordable for one and all. Please feel free to get in touch with our contact person once you decide to illuminate.
