About India Agritec Solar

India Agritec Solar, your premier destination for innovative solar fencing solutions. Established in **2012** by **Mr. Ashokbhai M Tarbundiya**, India Agritec Solar has emerged as a leading **manufacturer, supplier, and exporter** of a wide range of solar-powered agricultural fencing equipment and components. Based in **Ankleshwar, Gujarat**, our company is committed to providing cutting-edge solutions that enhance the security and productivity of agricultural operations worldwide.

At **India Agritec Solar**, we specialize in manufacturing a diverse array of products designed to meet the unique needs of farmers and agricultural enterprises. From solar fence guards and energizers to charging transformers and digital battery chargers, our comprehensive product lineup encompasses everything necessary to create efficient and reliable solar fencing systems.

Our commitment to innovation and quality is evident in every product we offer. We utilize the latest technology and adhere to stringent quality control measures to ensure that our solar fencing solutions meet the highest standards of performance, durability, and reliability. Whether you need a complete solar fencing system or individual components, you can trust India Agritec Solar to deliver superior products that exceed your expectations.

In addition to our solar fencing equipment, we also provide a range of accessories and components to support the installation and maintenance of solar fencing systems. From LED lights and ceramic insulators to power cables and connectors, we offer everything you need to customize and optimize your solar fencing setup for maximum effectiveness and efficiency.

At **India Agritec Solar**, customer satisfaction is our top priority. We are dedicated to providing exceptional service and support to our clients, ensuring that their solar fencing projects are completed seamlessly and successfully. Our team of knowledgeable professionals is always available to assist with product selection, installation guidance, and troubleshooting, ensuring that you get the most out of your investment in solar fencing technology.
