About Marathwada Agricultural Research Institute Parbhani

Marathwada Agricultural Research Institute, based in Parbhani, Maharashtra, is a renowned manufacturer and supplier of top-quality plant growth regulators. The company was established in 2020 and has quickly established itself as a trusted provider of premium plant growth solutions to customers across the country.

With an extensive range of products, including the 500-ml and 1-liter variants of Prolifer and Jell Nano, Marathwada Agricultural Research Institute offers growers a comprehensive selection of plant growth regulators to choose from. The company's cutting-edge products are designed to boost plant growth rates, increase yields, and enhance overall plant health.

Marathwada Agricultural Research Institute's dedication to quality sets it apart from other players in the industry. The company's plant growth regulators are formulated using only the highest quality ingredients and are manufactured to the strictest quality control standards. Each product undergoes rigorous testing to ensure optimal efficacy and safety, giving growers peace of mind that they are using only the best products available.

Its team of experts is always available to provide support and advice to growers, helping them achieve the best possible results. With its focus on quality, innovation, and customer service, Marathwada Agricultural Research Institute is poised to become a leading player in the plant growth industry. The company has been a name in the industry with a sustainable approach that is keeping it on the top.
