About R.K. Industries

Starting from the year 1973, R.K. Industries began as a Haryana manufacturer and supplier of very high-grade test sieves. With decades of service in this very industry, the company has established a reputation for delivering to people in construction, pharmaceuticals, and many research labs reliable and accurate testing equipment from the end

R.K. Industries is engaged in the production of precision test sieves for sale to national as well as international markets. The brass and galvanized iron test sieves made by the company are not only long-lasting but also yield very precise results. It forms an essential part of quality control processes; hence, it guarantees reliability and consistency in material and product delivery to industries.

Decades of Excellence

With over forty years of service, R.K. Industries has acquired a lot of experience regarding the testing requirements of different industries. This is what makes the company such a consistent and long-term association business with customers. They focus on staying one step ahead in terms of industry progress by continuously enhancing products and processes.

Industry Focus

R.K. Industries pride itself on very high craftsmanship standards and always ensures that the test sieves delivered to its clients will yield precise results in rugged testing conditions. This keeps the company at the forefront of the testing equipment sector, as it continues to cater to the needs of every industry across India.
