About Samruddhi Green Crop Care Pvt. Ltd.

Samruddhi Green Crop Care Pvt Ltd was established in the year 2015 in Gujarat, India. We are an exporter and trader of plant growth promoters, liquid solutions, and a lot more. Our range is acknowledged for attributes like safe usage, effectiveness, precise pH value and accurate chemical composition. These biotechnology products can also be used as solvents in paints, fuels and lube additives.

Our comprehensive gamut of products is developed using plant-based alkaloids, which are combined with microbial enzymes to make these highly suitable for protection against various pests and plant diseases. These products are formulated as per the set quality norms using the most advanced methodologies and techniques.

Furthermore, it is also ensured that these do not leave any residue after application. Also, these are processed in such a manner to make these completely environment-friendly, which makes these most preferred by our clients.

Research & Development

Our organization keeps a tab on the recent and the latest advancements in the industry. For this, we have employed a team of highly skilled research associates, who conduct market research and surveys to keep themselves aware of the technological advancements in the industry.

These professionals undertake a thorough study of our product range to continually improve its quality. All their efforts are directed towards creating such products that are effective in enhancing the productivity of crops.

They work in sync with farmers to understand their proper requirements and accordingly create an innovative assortment of products for them. All experiments and research are done in our well-equipped R&D unit.
