About Shree Swami Samarth Engg Works

At **Shree Swami Samarth Engineering Works**, we take pride in our legacy of manufacturing excellence and dedication to providing top-quality valve washers and engineering components to our clients worldwide. Since our establishment in **2008** by **Mr. Pravin Shinde**, we have been committed to delivering innovative solutions and unmatched service in the engineering industry.

Located in **Adgaon, Maharashtra**, our state-of-the-art facilities are equipped with the latest technology and machinery to ensure precision manufacturing of a wide range of products. From valve washers to CNC machined components, automotive bushings to forged rings, we offer a diverse portfolio to meet the varied needs of our customers.

Our product range includes thrust washers, shim washers, round metal washers, plain washers, and more, each meticulously crafted to meet stringent quality standards and specifications. Whether you require hardened washers for heavy-duty applications or stainless steel washers for corrosion resistance, we have the expertise and capabilities to deliver tailored solutions to suit your requirements.

In addition to our extensive washer catalogue, we also specialize in producing hot and cold forged components, CNC machined parts, and a variety of fasteners including lock nuts and bolts. Our commitment to excellence extends beyond our products to encompass every aspect of our operations, from design and manufacturing to quality control and customer service.

At Shree Swami Samarth Engineering Works, customer satisfaction is at the forefront of everything we do. Our dedicated team of professionals works tirelessly to ensure timely delivery, competitive pricing, and superior product performance. We understand the importance of reliability and consistency in today's fast-paced market, and we strive to exceed expectations with every order.
