About Shree Ram Industries Balotra

Our factory specializes in extracting pure lead from old batteries. We recycle old batteries in compliance with environmental safety standards to produce high-quality lead. Our goal is not only to supply raw materials but also to contribute to environmental conservation by recycling old batteries. We use state-of-the-art technology in this process to ensure the production of pure and safe lead. The lead we produce is used across various industries, including battery manufacturing, construction materials, and other electronic products. We prioritize quality, safety, and environmental responsibility in all our operations.
