About Pratik Fishnet

Pratik Fishnet was founded due to a love of the ocean and its abundance. In Khordha, Odisha, where fishing is a way of life rather than just a job, our voyage began. We aim to give the greatest tools for fishers to prosper. We've established ourselves as the preferred producer and seller of premium fishing nets throughout the years. Every weave and knot demonstrates our commitment to accuracy. Our nets are strong and resilient, just as the sea requires.

Innovation in Every Weave

Both fishing and we are dynamic endeavours. We at Pratik Fishnet support innovation. Our goods are continuously improved to satisfy the demands of contemporary fishermen. Our nets are made to be resilient enough to endure even the most extreme circumstances.

Built Locally, Loved Globally

Our nets have transcended boundaries even though we are based in Khordha, Odisha. Our goods are trusted by fishermen across India and beyond. This is the outcome of our commitment to quality. We collaborate with skilled artisans who are authorities in their domains and employ the best raw materials available. Every net is meticulously inspected to ensure it meets our exacting standards. Our customers know they can depend on us whether they are deep-sea explorers or coastal fisherman.

A Team with a Vision

Our group is committed to empowering fishermen. We think that the people who brave the seas are the backbone of the fishing business. We take our position seriously because of this. We make equipment that sustain livelihoods in addition to fishing nets. Our knowledgeable staff has decades of combined industry expertise. They put forth a lot of effort to create nets that blend cutting-edge technology with traditional craftsmanship.

Factsheet

Basic Information
