## About Tanisk Biotech

Tanisk Biotech was established in the year 2021 in Dehradun, Uttarakhand, India. We are a manufacturer and supplier of pharmaceutical tablets, capsules and a lot more.

With all these certifications with us, we march forward to provide all-around excellence. We believe in innovation, so we've worked on a growing portfolio of best-in-class pharmaceutical formulations in the medical industry.

The company offers the best franchise opportunity in the pharmaceutical industry with exceptional marketing support and monopoly rights. We invite pharmaceutical industry people like medical representatives, distributors, etc to come and join hands with us to start their own business.

### Why Choose Us?

At Tanisk Biotech, we have a variety of promotional approaches that provides long-term pharma opportunities to those who wish to flourish in the medical industry. Factors that have made us successful in the PCD Pharma franchise are as follows:

#### Excellent Compliance Record

Being a professional name in the market, we have been serving a reliable ISO 9001:2015 and WHO-GMP-certified assortment of medicines to customers at very affordable costs. The products are packaged in high-quality materials that provide all relevant information, such as composition, manufacturing date, expiration date, prescription, and other instructions.

#### Our Business Values

As a customer-focused organization, our company's value is based on maintaining the highest level of accuracy and quality in our manufacturing work while also continuing the continuity of our services for both current and new clients. Another important aspect of our business value is that we are passionate about delivering on time with exceptional services.
