About Tristar Engineering

TRISTAR ENGINEERING is a renowned Chennai based wholesale supplier and exporter of industrial-grade electrical equipment like fuses, links, fuse holder, and NH Din Fuse Base. We are renowned to supply high-quality products at a reasonable price across the nation.

Our Establishment

We are Chennai, Tamil Nadu based company established as an organisation in 2008. We supply the whole range of energy and power-related products made from high-quality raw materials sourced from reliable vendors only.

Through the determination and a vision to rule the industry, we started our journey under the esteemed guidance of our mentor, Mr PRATAP SINGH MISHRA. Our enterprises grew steadily with many small contracts from engineering industries.

Our Team

We have an excellent professional team and cutting-edge technology along with extensive equipment to help us successfully achieve our mission. We possess some of the most strong and versatile computer design programmes available. Our advanced manufacturing unit enables us to carry out an immense number of electrical and mechanical tests during the development of our products. Periodical controls of those are done already in the manufacturing stage. We can always guarantee the customer top quality electrical material products.

Why Choose Us?

We are renowned to supply and promise

Extensive range of products Market-leading price International standard quality Nationwide wide reach Secure and damage-proof packaging
Time stipulated delivery Satisfying usage guarantee
