About VIBRANT COLORTECH PRIVATE LIMITED

Vibrant group started with Vibrant Colortech Private limited caters to the masterbatch needs of the industry in a significant way in current business environment. Our masterbatches give an appeal and feel that comes from high quality color pigments and right quality of polymers making them stand out among others in the category. Vibrant group further added two more companies to its wings viz. Vibrant Specialty LLP and Vibrant Ecoplast LLP to cater to the growing markets across the globe. At Vibrant we understand the aesthetics that color brings to its products. The right hue and shade not only enhances the look and appeal of a product, it significantly increases sales appeal, functionality and has the potential to become the `USP` of a class of products. We pride ourselves in producing extremely high quality resilient and saturated masterbatches that lend beautifully to a wide array of plastic products – in any imaginable color. To this end we are constantly re-inventing our technological capabilities, ensuring our masterbatches not only make your product look great, but also add functional value to it. With over twenty eight years of experience, five offices across pan India and a vast International presence in East & South Africa, Bangladesh, Sri Lanka, Middle East and Europe, Vibrant group is well poised and qualified to colour your imagination . **Mission** . To become the preferred choice of customers and clients when it comes to procuring masterbatches for their products and designs. . To invest in continuous R&D in order to increase the applications of plastic products and to make current products more durable more efficient and more affordable. . To provide a sound and stable environment for growth and mutual benefit to all our stakeholders-suppliers, investors and employees. . To pioneer in Master batches to support sustainability . To introduce Biopolymer - Masterbatch that is friendly to the environment . Global Reach, Local Roots:
